CABINET MEETING TOMORROW

By RALPH S. COUCH

(United Press Correspondent)

WASHINGTON, Nov. 24.—S. C. C. of the coal strike is expected to be put squarely up to President Wilson after the meeting of his cabinet tomorrow. The cabinet is slated to go over the whole problem and the various proposals and counter proposals that have been made.

The operators' contention that the public will have to pay the higher wages if the miners' demands are met will probably be placed before the President and his advice sought. Attorney General Palmer, Railroad Director Hines and Judge Ames, assistant Attorney General, planned a conference on the situation today. Mr. Administrator Garfield was expected to be present.

Miners and operators were scheduled to resume their joint conference this morning. This however, seemed likely to be postponed until after the cabinet meeting today. Coal operators were waiting for the government to assume responsibility for the increased fuel price. They declared they will not, unless ordered by the government, go beyond their offer to the miners of a 2 per cent. wage increase which would increase the price of a ton 35c more to the consumer. Miners contend that the government has already given its order through Secretary Wilson. The proposal is a compromise on the basis of a 31 per cent increase.

WASHINGTON, Nov. 24.—Both the operators and the miners were looking Sunday to Dr. Garfield, U. S. administrator, to take the next step towards effecting a settlement of the coal strike negotiations.

As matters stood the conference was again deadlocked over the question of the wage increase, which is the dominant issue. The best that the operators have offered is a 20 per cent raise, the least that the miners have agreed to accept is a 31.6 per cent. increase. Neither side manifested any disposition to compromise further.

Along with this resume of the situation it is also clear that the public will have to bear the cost of the increased wage scale. The operators resented last night that their offer of 20 per cent. increase was conditional upon government approval and that the government must take the responsibility for any wage agreement determined upon.

The burden of saving just how much a raise in wages the consuming public may be fairly expected to bear falls upon the U. S. Fuel Administrator. For that reason Dr. Garfield is expected to come forward and speak more definitely than he did last week when he laid down the average of labor cost and living cost before the conference.

Whether the coal conference will get down to business again today is problematical. The miners said that they were waiting for the operators to tell them when they were ready to go on the negotiations. The operators said they had asked Dr. Garfield to meet them again and advise them what to do.

Dr. Garfield said that he could not say whether he would meet the operators today or indeed, whether any conference would be held before Tuesday.

It is entirely possible that the negotiations will mark time until the whole situation is put to the cabinet at its meeting Tuesday. The operators pointed out that there is a wide difference between the position taken by Dr. Garfield and that taken by Secretary Wilson, and that the cabinet will have to decide the lead which the government will follow.

Secretary Wilson's analysis of the controversy is that there should be a flat increase in mining rates of 27.12 cents per ton, a flat increase in day wages of \$1.58, and an increase in yardage and dead-work of 31.61 per cent.

While Dr. Garfield has not yet made a specific recommendation in definite percentages and figures, the operators

CLEARFIELD HIGH
TRIMS ALTOONA
TUNE OF 23 TO 0

Last Saturday afternoon Coach Heisey's Tank Corps completely put to rout Coach Sharadin's Warriors on Cricket Field at Altoona by the score of 23-0. It had been the hopes of the Altoona team that they might hold the "tank" to a 0-0 score or else nose out a victory by a small margin, for they had expected to lay claim to the Central State Championship since they had lost only one game previous to Saturday's game. It was Altoona's "Mink or Break" game as their papers expressed it. During the first half the "Tank" was not very active and did not do a great deal of damage scoring only five points—two from a set back made by Captain Butler in the first quarter and three from a drop kick in the second quarter. In the third quarter by a series of line plunges and end runs the "Tank" worked the ball down to Altoona's two yard line when Butler in a line plunge carried it across for Clearfield's first touchdown. It was in the fourth quarter that the "Tank" ran away. Bruce Norris broke away for a run of 4 yards down the field with Sharadin's army in hot pursuit for Clearfield's end touchdown. A few minutes later by real team work and some fine end runs, Capt. Butler scored our third touchdown making the score 23-0. Altoona during the entire game made only two first downs and those they gained by forward passes. The line up was as follows:

Altoona	Clearfield
Fasick	C
Smith	RG
Shaffer	RT
Clark	RE
Pinn	LT
Earnest	LT
Myers	LE
Burket	RH
Bratton	LH
Ullery	QB
Gieg	FB
	Butler (Capt)

Safety, Butler
Drop kick, Butler
Touchdowns, Butler 2, B. Norris 1

TWO SCORE KILLED
IN DANCE HALL
CONFLAGRATION

VILLA PLATTE, Louisiana, Nov. 23.—Nineteen bodies of girls and young women and six bodies of men were recovered today, victims of a fire that occurred last night from the explosion of an oil stove while a dance was being held on the second floor of a frame building. Among the dead are members of many prominent families. Some of the corpses were charred beyond possibility of identification.

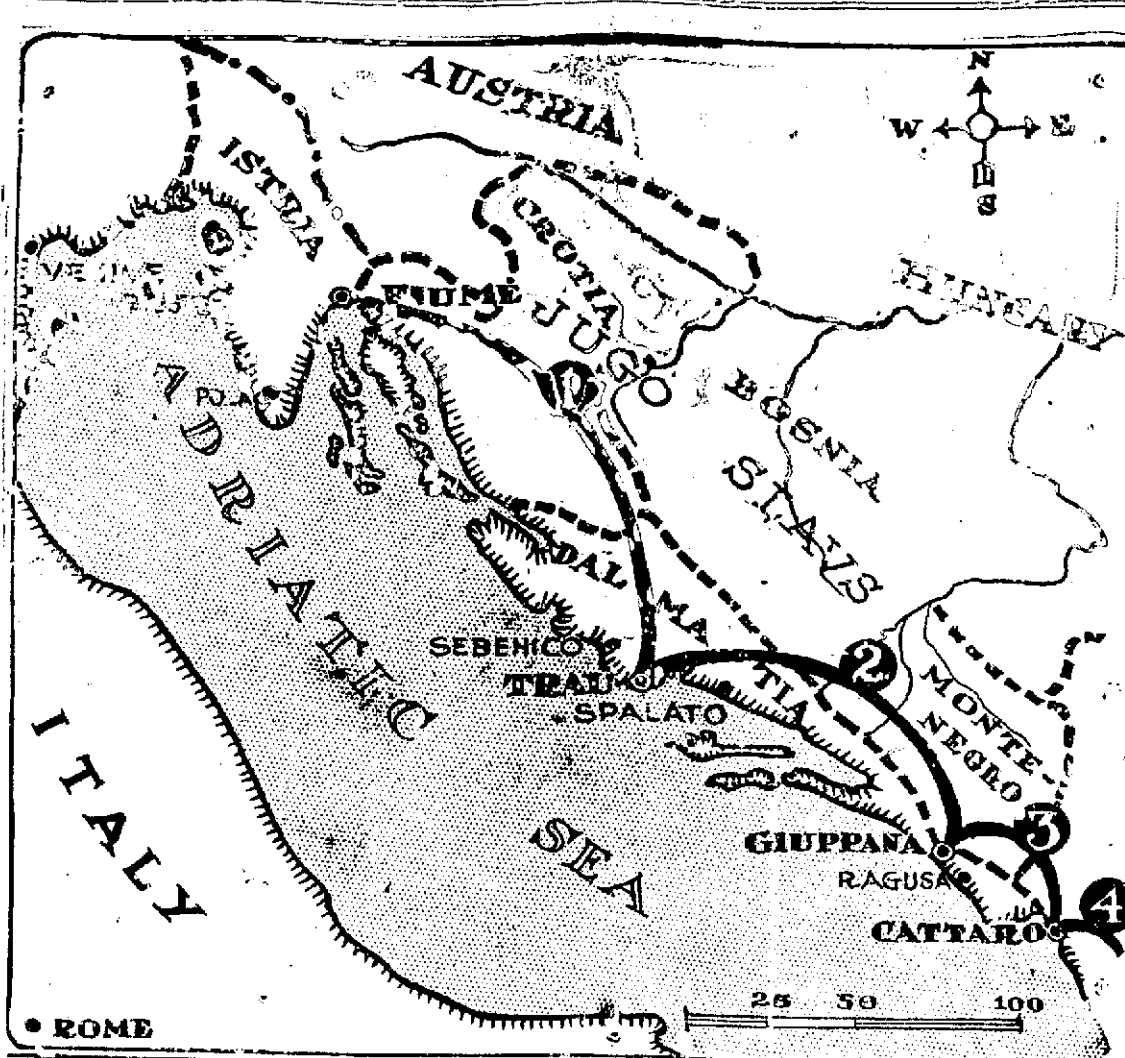

The fire started on the ground floor and enveloped the dance floor, causing a wild panic. The only exit was a flight of narrow stairs, which became choked in an instant. Not a few of the victims were trampled to death, while others, stumbling over prostrate forms, hurtled into the flames below. A large number of the dancers, recognizing that they were trapped, and knowing death awaited them, leaped from the windows, escaping with injuries more or less serious.

It is a strange fact that Africans never sneeze; neither do their descendants, if they are pure-blooded, although domiciled in other parts of the world.

claim that the data of the U. S. Fuel Administrator will not support the offer which the miners promptly said they would accept.

The operators said that the economic facts of the coal industry show that there should be no wage increase at all. But they said they offered 20 per cent because the government had told them to offer the miners something so as to break the deadlock and induce the miners to resume work.

The operators said that they had gone as far as they could and that to offer more would not only be re-waging the consumer to pay an excessive price but that it would have the effect of wrecking the coal industry by creating the way for successful competition on the part of the Mexican and other.

Children Cannot Develop Normally Except in a Child's World

When Your Little Child Runs Away Perhaps He is Tired of You and Needs Children of His Own Age—The Kindergarten Solves the Problem

When your little child runs away, I know of a little lad who had, he perhaps he is tired of you. No mother, no matter how devoted and wise and loving, can give her child all he needs. He can not develop normally except in a child's world; he needs other little boys and girls of his own age to play with and to work with.

The child who is born into a large family is fortunate indeed. Of course he never realizes this at the time, and when grown people say, "How fine it is to have so many brothers and sisters," he thinks them just as stupid as when they remark that school days are the happiest time of one's life.

Elsie or Harold will tell you that when there are four other children in your family, it means you have to wear their old clothes, and take turns, and you can't have the biggest piece of cake.

But some day when Harold has grown to man's estate he will look back on those days, and all he will remember will be the delightful plays, the circus, with its troupe, the charades, and hide-and-seek in the yard at dusk, and Christmas with the row of stockings by the fireplace, and the Christmas tree where you waited to hear your name called as each gift was taken down.

The joys which everybody shared made more precious the times when you were the only one at such birthdays, and when you were sick and had mother all to yourself.

But poor little "only child" is a Lilliputian in a foreign land. He may have a nursery full of toys, the grown-ups may be his slaves, but still it is a grown-up world and he is "the child alone."

BILLY DANSEY MAY
YET BE FOUND IS
BELIEF IN JERSEY

HAMMONTON, N. J.—County officials are investigating the theory that the skeleton found here Friday may not be that of Billy Dansey, for whom a nation wide search was started after he disappeared October 8. Permission to remove the skeleton to Pittsburgh, where the child's parent formerly lived, was refused by the coroner pending the results of the investigation. This step was taken after the belief was expressed that the skeleton was that of a child who died considerably longer than six weeks ago. It was pointed out that the skeleton had been deposited in the swamp near the Dansey home to throw searchers off the trail of the possible kidnappers.

LODGE DECLARES
FOR REFERENDUM
ON PEACE TREATY

WASHINGTON, Nov. 21.—Senator Lodge came out strongly today for a referendum of the American people on the question of ratification of the treaty rejected by the senate.

The senator welcomed the suggestion that the treaty question be made an issue in the next presidential election. He would have the people vote their approval or disapproval of ratification with the reservations prepared by the senate majority or ratification without reservations as demanded by the President, or rejection altogether.

"To this great tribunal alone would I appeal," the senator said.

Senator Lodge made his announcement in a statement given to the press. It was a surprise to some of his associates, as the proposal for a referendum both on the question of ratification has heretofore been favored by irreconcilable opponents of the treaty, such as Senators Borah, Johnson and Reed.

The position announced by Senator Lodge is that the reservations rejected by the senate did nothing more than Americanize the treaty. Therefore he wants the people to decide whether there is anything objectionable in them. He wants them studied in every household, in every shop and factory throughout the land, so that the people may decide in electing their representatives to the next congress and in electing their president whether or not the treaty should be accepted as it is or may be rejected unless the reservations are accepted.

Senator Lodge's statement indicated that it may be a part of his plan to hold the treaty in the foreign relations committee an indefinite time so that the primaries and election can be held before the senate is again called upon to act on ratification. This could be done if a majority of the committee so wills it, provided the senate, by a majority vote, did not take the treaty out of the hands of the committee, and insist upon immediate action.

MEXICAN REPLY ON
JENKINS AFFAIR
WILL BE EVASIVE

WASHINGTON.—Mexico's reply to the American note demanding the release of William O. Jenkins, United States Consul agent, imprisoned at Pueblo, is expected to be placed before Secretary Lansing today or tomorrow, it was learned at the State Department today. It was reported that the Mexican answer would be evasive and that it would charge Jenkins with conspiracy with anti-Carranza rebels.

LAST "BUCK TAIL" EXPIRES

Joseph K. Henry, of Bell township, died at his home last Thursday, November 13, aged 83 years, three months and ten days.

Mr. Henry has been a respected resident of this community for years and was a typical old soldier. During Civil War he served with the Pennsylvania Buck Tails, a regiment which was famous for its brave men and daring attacks.

He is survived by two sons, James and William and one daughter Mrs. Alice Poorman at home.

Funeral services were held at the Rock Springs church. Rev. Emmiahizer preached the devotional sermon. Burial was made in the cemetery with Funeral Director J. A. Bolvin in charge.

GETS THIRD TERM

J. B. Garrison, of Pike township, who has served so successfully on the school board of Pike township the past twelve years, that he was re-elected for a third term at the recent election, was a business visitor to Clearfield today.

LUTHERANS, TOO,
OBSERVE FATHER
AND SON DAY

On Friday evening, October 21st, the men of the Lutheran Sunday School and Church gathered at the Sunday School room and enjoyed the program prepared for them. A selection by a male quartette, composed of Irwin Fisher, Alva Brothers, Grover Fisher and P. A. Dietzel, was much enjoyed.

Prayer by Pastor William A. Baker. Song by the Quartette. Chairman stated the object of the occasion.

Address by Dr. J. Paul Frantz, "Danger Points."

Address by E. B. Basford, "Future plans for the firm."

Address by Prof. Copp, "Team Work."

Solo by Miss Amelia Koibe.

Address of the evening, Prof. W. M. Rife of Huntingdon, Pa. "Church Efficiency."

Mr. Rife is a talented lecturer and kept the men spellbound for 30 minutes, giving them splendid advice and urging them to do more determined and united work for the cause of the Master.

At 9:30 the men and boys were invited to the dining room in the basement, where the Willing Helpers, in their usual efficient manner, had provided a splendid repast. About 100 were served. After several selections of a lively nature by the quartette, the Toastmaster, Mr. Harvey S. Mann called on a number of the men for speeches. The following responded in a most eloquent manner: Squire F. G. Chorpensing, Theodore Peterson, Bruce Smeal, William McBride, A. J. Musser, Rev. Baker. Mr. Tobias rendered a very humorous selection. Prof. Rife again took the floor and spoke on the work of the men in the church. The result was that the men decided to organize a Brotherhood and the following temporary officers were elected: President, Harry E. Mann; Vice President, W. F. Rees; Secretary, Treasurer, Alva Brothers.

SIX SMALL BOYS
CAUGHT LOOTING
BUSINESS PLACES

The police yesterday succeeded in rounding up a gang of five or six local boys who have been systematically pillaging the different stores about town. When taken into custody they disgorged loot valued at a considerable sum. The articles taken consisted of toys, wearing apparel, knick knacks, cigarettes and other things to attract the juvenile fancy.

When the boys and their spots were gathered together the merchandise of the town were communicated with by the police and called to look the outfit over. Kurt Bros., Leitinger Bros., A. W. Leonardson Co. and McCrory's Five and Ten Cent store identified articles taken from their counters, while loot from several other establishments was also unearthed.

The boys charged with the crime range in age from 15 down to 12 years and some of them have been giving their parents more or less trouble from time to time. It has not been fully decided as yet just what disposition will be made of the youthful culprits.

There has been entirely too much of this petty stealing about Clearfield for the past year or two and it is largely up to the parents of the town to put a stop to the peculations of their boys. Very much of this work is that of thoughtless lads with the usual youthful hazy idea of property rights, and it requires eternal vigilance on the part of the parent to keep the average boy away from temptation.

Anyway, the coal strike served to make us forget, for a time, the poor mail service.

Clearfield may be a little slow about erecting that Soldier Memorial but when it is erected it will be done right.

The doctors report more cases of tuberculosis in our community than we have funds to care for. Therefore buy Red Cross seals.

With every man woman and child having more to be thankful for than ever in their lives it is odd that only one of the Protestant churches in central Clearfield will be required to house those who want to return thanks.

It is high time that automobile drivers learn the rights of pedestrians and owners of live stock and poultry. An example should be made of those who like to boast of the number of chickens they killed on their last trip.

After observing how generously the United States has been dealing with the Allies, all the helpless nations on the earth would like to have this country accept mandates over them. With that accomplished, their troubles would be at an end, and ours would begin.

PRESBYTERIANS DEMOLISH BIG SERVICE FLAG

The Presbyterian church of Clearfield demolished its service flag with appropriate and unique services yesterday evening. At the opening of the services Dr. Reeve, the pastor, announced that the like of this service would never be held again and that this feature alone would be unique. He then recounted the experiences of war times and endeavored to impress upon the service men the fidelity and devotion of those left behind, the stirring times in Clearfield and the deep sentiment of the service flag. It was intended to have Col. Frederick B. Kerr and W. I. Betts make addresses but the former was ill and the latter was unavoidably absent but the balance of the program was carried out to a letter.

Dr. Reeves called on Mrs. George Reed to speak for the mothers of the congregation. Mrs. Reed gave an interesting account of the origin of the service flag and told of the mother's privilege to sacrifice for a loved son. A. Bowman Weaver, one of the boys who enlisted but did not get across told of "fighting the battle of Camp Lee" and described, as well as words can describe, the agony of the boy who wanted to fight France but was militarily sidetracked. Capt. W. S. Piper then talked from the viewpoint of the man who did see across. He spoke in feeling terms of the manner in which the boys "over there" were backed up by those at home. In closing he suggested that the service flag of the church be dedicated as a memorial to the Metropolitan mobilized by the Creator, that as Museum of Art in New York, the Museum passed into the Great Beyond his cum of Fine Arts in Boston, and the or her name be stricken from the Korean Gallery of Art in Washington as representing the peace-ton.

ing from this sphere of conquest to that Great Unknown where strife is ended.

The service flag of the Presbyterian church has on its white background a total of 104 stars which include three Y. M. C. A. workers and four Red Cross Nurses. Two of these nurses paid the supreme sacrifice—Miss Judith Viberg and Mrs. Elizabeth Clees. Of the service men, not one man lost his life and for this there has been great rejoicing in the church. Ten were wounded.

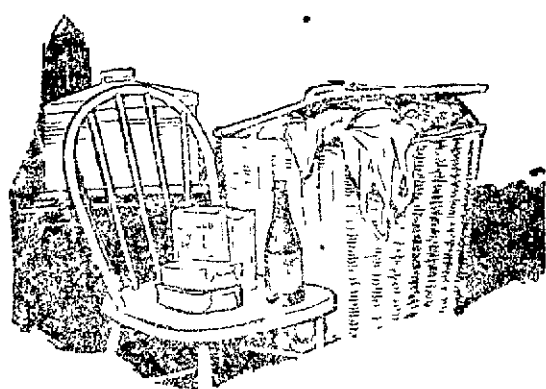

At the conclusion of the service the congregation voted to erect a bronze tablet in the church having inscribed thereon the names of all on the service flag.

The flag was lowered by Billy Piper and family and reverently folded and laid away by three little girls. The lowering of the flag was done while the congregation sang the song, "God Bless Our Splendid Men," which has been sung at every service since shortly after the war started.

FAT PERSONS DIE FIRST, SAY INSURANCE MEN

CHICAGO, Nov. 20.—In an address today before the American Institute of Actuaries, H. W. Batholp, Indianapolis, who has devoted years to the study of life insurance, made these observations: That thin persons live longer than fat persons. That the moderate use of alcoholic beverages is not likely to lessen life. That the middle west is the most healthful locality of the United States. That the extreme south is the most unhealthy section of the United States.

The coming year will mark the centennial of the founding of home. In closing he suggested that the service flag of the church be dedicated as a memorial to the Metropolitan mobilized by the Creator, that as Museum of Art in New York, the Museum passed into the Great Beyond his cum of Fine Arts in Boston, and the or her name be stricken from the Korean Gallery of Art in Washington as representing the peace-ton.

Burnham, Pa.—"I can fully endorse and recommend Dr. Pierce's Favorite Prescription to all prospective mothers. I feel that I could not be without it during pregnancy. I am the mother of four living children. Am strong and healthy and able to do hard work. A woman of my acquaintance was the mother of thirteen children and all the doctor she had was 'Favorite Prescription' which she used for three or four months and never had any trouble. I would not do without it."—MRS. J. C. KANOUR, Box 216.

A Prominent Nurse Testifies

Philadelphia, Pa.—"When I get a cold and have pain through my lungs, I resort to Dr. Pierce's Golden Medical Discovery, which I cannot praise enough."

"As for Dr. Pierce's Favorite Prescription I never have a case of expectancy that I do not recommend it. They all say, they would not do without it."

"My kidneys and back were so bad that I had to turn down several cases. After taking a trial package of Dr. Pierce's Anuria (anti-uric acid) Tablets I got a full-sized bottle and the relief was wonderful. I am relieved of the backache and the exertion is healthy looking. I am feeling fine."

"As for Dr. Pierce's Pleasant Pellets when I feel dizzy and drowsy and get the blues I go for the 'Pellets' and in 24 hours I am feeling fine. They are the best cure for liver and indigestion. I could speak equally as well for Dr. Pierce's Extract of Sarsaparilla. I have also used the Ironic (iron-tonic) tablets and they have proved wonderful."

"I could go on with praise of Dr. Pierce's valuable remedies but space will not permit. If anyone calls on me I can tell you my experience better than I can write it."—MRS. LOUISA BARNARD, 211 E. Cambridge St.

LOCAL CITIZENS LOOK OVER NEW CASKET PROJECT

(Advertisement)

Several Clearfield business men, with Mayor John M. Chase at the head, visited Altoona Saturday last at the invitation of local agent H. A. Boone to inspect the plant of the Altoona Glass Casket Corporation. This corporation has a number of local stockholders and as it is the purpose to get the plant in operation as soon as the finishing touches can be put on same, it was desired by the management that this committee should visit the plant and note the substantial nature of the progress made thus far.

The product of this concern is expected to revolutionize the coffin or casket industry continuing as it does the highest efficiency with neatness and cheapness of construction. The corporation owns six and one-half acres of land just outside of Altoona upon which they have erected the first unit of their plant which will ultimately cover the entire plot. The initial unit contains the most modern of glass making machinery surrounding a \$50,000 furnace.

The officers of the corporation are made up of some of Blair county's best known and most substantial business men, the President S. W. Manning, having charge of the construction of the plant.

The glass casket is made of two pieces of glass, grooved and tongue, and when closed is hermetically sealed and as glass resists the action of the earth's minerals very much better than wood or metal are supposed to be far superior to all other materials used in the manufacture of caskets.

Walter J. Lumbieau, fiscal agent of the company, will visit Clearfield Thursday evening in the interest of the Glass Casket Corporation and will explain the advantages of same to a meeting at the Fireman's Hall on Market street.

Foley's Honey and Tar COMPOUND

IT IS JUST WHAT CHILDREN ought to have for feverish colds, coughs, "snuffles," and that tight, wheezing breathing. It stops croup, too. It eases and checks whooping cough, measles cough and bronchial coughs.

Every User a Friend

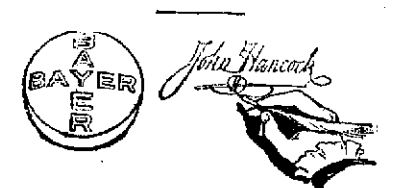

"My little girl had been having the croup every few nights, so I began giving her a few drops of Foley's Honey and Tar every two or three hours. That night she slept well, never coughed any, and next day her cold was gone."—Mrs. R. M. Ranley, Stamford, Ky.

"My three children had a very severe attack of whooping cough. The first few doses of Foley's Honey and Tar gave them great relief, and it did them good."—Mrs. E. C. Hostler, Grand Island, Neb.

Foley's Honey and Tar has been used for more than thirty years in thousands of homes for relief from coughs, colds, spasmodic croup, tickling throat, hoarseness, whooping cough, bronchial coughs and the coughs that follow influenza or grippe.

NEWS OF OUR NEIGHBORS CURWENSVILLE

Mr. and Mrs. William Milliron, who spent several months near Franklin Grove, Ill., with the family of William Back, returned to their home in Curwensville last Saturday.

A football squad composed of members of the Sophomore class of the High school went to Clearfield on Saturday and were defeated by a score of 20 to 0. This was their first attempt at the game, but those who witnessed the game say the boys put up a right snappy game.

Isaac Black and son Raymond, who have been operating a drilling machine in the western end of the county during the summer months, are moving the machinery to Stronach and will sink some test holes for Harbison-Walker.

Several children in the family of Mr. and Mrs. Atlie Norris are ill with pneumonia.

Miss Hazel Thomas, who resides in Bloom township, and attends the High school here, stated to us that while at Bloom's Run station awaiting a train, she and her father saw a flock of seven deer, pasturing between the railroad and Anderson creek. It is seldom that she does not see from one to four deer near the same place every morning.

Reed Boyd, one of Clearfield's Boy Scouts, was the guest of Curwensville friends over Sunday.

Why Does a Woodpecker Peck

BY ADELIA BELLE BEARD

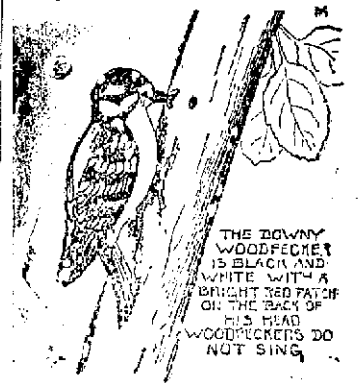

If you can get near enough to a woodpecker when he is pecking steadily at one spot on a tree, or if you have a good pair of opera or field-glasses through which to watch him, you will see for yourself why he pecks. He does not do it for the fun of the thing you may be sure, though no doubt he enjoys his skill in securing his dinner by his own peculiar method.

And that is why the woodpecker pecks. He pecks that he may eat and he eats the wood-boring insects that destroy the fruit and forest trees, so he is pecking in your interest and mine as well as his own. He also pecks to enlarge—or make—a hole where he can put his nest.

The hungry, little worker has THREE PERFECT TOOLS always ready for use. First there are his very keen EARS which tell him without fail exactly where to find the grub or the wood-boring beetle and its larvae hidden away in the wood under the bark. Next he has a BEAK which is a perfect, little chisel, wedge-shaped at the tip, strong and sharp. This he uses to drill a hole directly over the insect his ears have located; a hole that looks as if made by a gimlet. The last of his three tools is his TONGUE and a most remarkable tongue it proves to be. It is very long and stretches far beyond the point of his beak. The tip is hard and horny and is provided with hooks slanting backward like those on a harpoon.

This long tongue the woodpecker uses to thrust down into the small, deep hole he has excavated (he could never get his beak into it) and to drag out on its hooks the juicy grub, or other insect, which is fattening on the life of the tree.

Do you know how many varieties of woodpeckers are found in your state? Can you name them?

THE DOWNY WOODPECKER IS BLACK AND WHITE WITH A BRIGHT RED PATCH ON THE HEAD. WOODPECKERS DO NOT SING.

A Vienna newspaper prints a story to the effect that among the superstitious peasantry of the Tyrol the belief has taken root that President Wilson is none other than the Crown Prince Rudolph, son of the late Emperor Francis Joseph. The Crown Prince, so the myth runs, was not killed in the famous tragedy of the castle of Mayerling in 1889, but merely kidnapped by his enemies and a dummy man buried in his stead. Later, so the story goes, he succeeded in escaping to America, where he assumed the name of Woodrow Wilson, and rose eventually to the presidency.

On the approach of a thunderstorm French peasants often make up a very silly story, in the belief that safely from lightning is assured. By some this is deemed superstition, but the custom is based on reason, inasmuch as the smoke acts as a good conductor for carrying away the electricity.

If Skin Breaks Out And Itches Apply Sulphur

Just the moment you apply Menthol-Sulphur to an itching, burning or broken out skin, the itching stops and healing begins, says a noted skin specialist. This sulphur-preparation made into a pleasant cold cream, gives such quick relief, even to febrile eczema, that nothing ever has been found to take its place.

Because of its germ destroying properties, it quickly subdues the itching, cools the irritation and heals the eczema right up, leaving a clear, smooth skin in place of ugly eruptions, rash, pimples or roughness.

You do not have to wait for improvement. It quickly shows. You can get about two ounces of Menthol-sulphur for a few cents at any drug store.

Can't you eat all things? Workman's bread is the regular food.

How to Study Skillfully

A Code of Manners for Books

BY ISABEL W. CLAYTON

Francis W. Parker School
Just as there is a code of manners of behavior, there is one for books. Do you know and use it?

Do not hurriedly open a new book. Instead lay it on a table or flat surface, grasp the pages in one hand and with the other gently push the covers down. Then press a few leaves down, first in the front and then in the back. Do this until all have been pressed down. This softens the back and prevents it from breaking.

Never use anything thicker than a piece of paper to turn a book. Do not turn the book over on its face; do not turn a leaf down or place a pencil or pencil mark in the book to mark the place.

Keep your books clean. Do not touch them when your hands are soiled. Do not turn the pages with a moistened thumb. It leaves a mark which is hard to remove.

When the cover has become soiled, clean it with finely powdered pumice stone rubbed in with a soft cloth. Soiled pages may also be cleaned with the pumice stone or with art gum.

If a leaf is torn, cut a piece of thin cream-colored paper one half an inch wide and the length of the tear and apply it by means of a good library paste to the tear. Put a piece of oiled paper under the page when mending so that no paste will get through to the next page.

If a page comes out, make a hinge of a good brand of paper one inch wide and the length of the page. Fold the paper lengthwise. Put library paste on one half of the folded paper and apply to loose page. Be sure that the folded edge of the paper is next to the inner edge of the page. Then paste the other side in book. See that the page is put in evenly. If it protrudes beyond the other pages trim neatly.

If kidneys and Bladder Bother

Take a glass of Salts to flush out your kidneys and neutralize irritating acids.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains, irritates and inflames, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse, again there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and has been used by thousands of folks who are subject to urinary disorders caused by uric acid irritant. Jad Salts is splendid for kidneys or causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.

POST OFFICE BLOCK CLEARFIELD, PA.

To the Citizens of This Town

You carry great responsibilities. In your hands are placed the lives of our children. If a fire should start in any schoolhouse two things may happen.

The building may be burned to the ground, and you know the building itself and its equipment could not be replaced today at many times the price it cost.

But that is unimportant compared to the possibility of a panic and loss of life among the children.

Every school building should be equipped with Pyrene Fire Extinguishers, and the use of Pyrene Fire Extinguishers should be taught in every school fire drill.

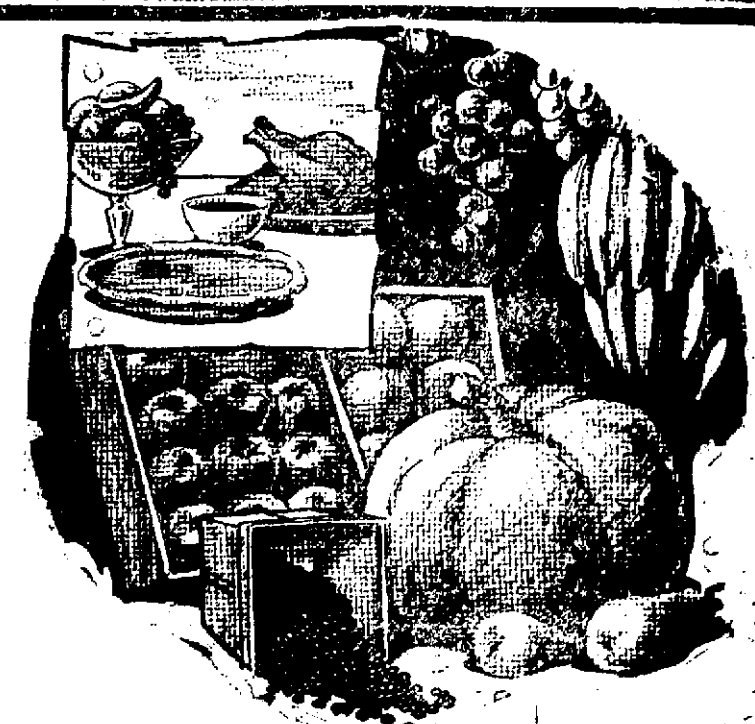

A Pyrene Fire Extinguisher will put out any small fire before it can gain headway. It is so light and simple that any woman or young child can use it. With a Pyrene fire can be put out before there is a chance for a panic.

Let us show you how many Pyrene Fire Extinguishers should be in each schoolhouse in this district.

Pyrene should be in every home also.

To Darken Hair Apply Sage Tea

A few applications of Sage Tea and Sulphur bring back its vigor, color, gloss and youthfulness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage Tea and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

Efficiency
By VICTOR REDCLIFFE

There never was a finer office layout than that of Alvin Perry who did a mail order business of magnitude and profit. The quarters were roomy and comfortable, the seven girl stenographers pretty, cheerful and efficient and the young men, from the book-keeper down to the bill clerk, model employees.

"They are like some happy family," Perry told a friend. "Every one does his or her best. I don't have to watch them and the business runs on greased rollers."

Then came a change. Perry decided to enlarge his trade. This took money, and a retired merchant agreed to supply the capital.

"I don't want to be active in the business primarily," announced Mr. Gideon Wells, "but I have been a successful man and I know the methods. At the end of each month you will supply me with a full audit."

"Oh, surely that," acquiesced Perry readily.
"And you must have an efficiency man put things on a modern working basis," but at this Perry hesitated, asking what this to him unfamiliar feature might signify.

A spell of gloom, of dissatisfaction was cast over the little office group the day that Mr. Paul Smith strode into view. Efficiency in saying showed on his hatchet-like, severe face. His hawklike eye pierced the personality of every employee as though he was arranging them in some court of criminals. He set to calculating the selling price of waste paper in the highest market, and ordered the office boy not to allow a scrap to escape his eagle eye. He examined all the typewriter ribbons. After a week of pottering around he came into Perry's office and closed the door.

"Well, I've done some things by way of a start," he placidly announced. "Charge to waste salvage two dollars and ten cents, and the ribbons an economy of thirty per cent."

"Yes," nodded Perry, "but you have scared away the best office boy we ever had, and worn ribbons work out some pretty weak looking copy."

"Efficiency, my dear sir, efficiency. Now then, I wish to attack your business system at its very root. There is altogether too much half-fellow well-met among your employees."

"Why, what do you mean," demanded Perry, rousing up.
"Just this: at the lunch hour you'd think your back office was a regular banquet hall. The employees pool their dinner money and make a regular party of it."

"They're orderly if happy, aren't they?" challenged Perry. "There are four engaged couples among the group. They do their work efficiently, are contented and cheerful, and their own little joys and lunch hour relaxation harm nobody."

"That may be, but I was engaged to put in a system, and Mr. Wells approves my plan. I would suggest that the young ladies all wear uniform black dresses, and one by one I would dismiss them and replace them with men typists."

Perry resisted, but Mr. Wells backed up his expert. The proposed revolution became known to the office force. One afternoon their duly appointed chairman came to Perry.

"We all feel sorry, sir," spoke the individual, "but we know too well how the tactics of this efficiency phenomenon of yours will end, and we have decided to resign our positions in a body."

And all save one forthwith marched out of the office. The one was Nellie Weaver. She was the head stenographer, with an aged mother dependent upon her earnings, and was the oldest and most reliable employee in the place. At her Perry glanced desolately and desperately, and gratefully, too, that she had not left him entirely in the lurch. Her eyes were troubled, but full of sympathy, too. They had never looked so witching to the perplexed Perry.

"Miss Weaver," he said "what am I going to do?"

"Can I speak freely," inquired Nellie, and as he nodded a willing assent she continued: "If I were you I would insist on this trouble maker leaving at once. Mr. Perry, half of the force are lovers and engaged, and it is love that makes the world go round and is responsible for the harmony that has always pervaded this office. You cannot replace the trained people who have just resigned. Please let them all come back—all of them, even to the office boy."

"I'm going to see Wells at once, and he'll agree to your suggestion or I will cancel our partnership."

Alvin Perry was gone an hour, when he returned he was excited, almost jubilant. "No more efficiency experts," he announced with zest. "I depend on you to see the others and arrange for matters as they were. You are a wise, precious little adviser, Nellie, and I've been thinking about what you said of love making the world go round. I want it to help me to help it. Nellie, I haven't been so busy a man that I haven't appreciated you. Something more! I love you. Will you make me happy?" and Nellie's blushing face and averted eyes gave answer.

Everyone Should Drink Hot Water in the morning
Wash away all stomach, liver, and bowel poisons before breakfast.

To feel your best, day in and day out, to feel clean inside; no sour breath, no coat your tongue and sicken your breath or dull your head; no constipation, bilious attacks, sick headache, colds, rheumatism or gassy, acid stomach, you must bathe on the inside like you bathe outside. This is vastly more important, because the skin pores do not absorb impurities into the blood, while the bowel pores do. To keep these poisons and toxins well flushed from the stomach, liver, kidneys and bowels, drink before breakfast each day, a glass of hot water with a teaspoonful of limestone phosphate in it. This will cleanse, purify and freshen the entire alimentary tract before eating more food.
Get a quarter pound of limestone phosphate from your pharmacist. It is inexpensive and almost tasteless. Drink phosphated hot water every morning to rid your system of the vile poisons and toxins; also to prevent their formation.

Infant marriages are still prevalent in India. Official figures show that in 1911 there were 155,518 "married men" under five years of age and 502,425 "married women" of the same tender age. Of "husbands" between the ages of five and ten there were nearly a million, while "wives" between these ages numbered well over two million.

Printed at Clearfield, Pa. at second class matter

Anyway, the coal strike served to make us forget, for a time, the poor mail service.

Clearfield may be a little slow about erecting that Soldier Memorial but when it is erected it will be done right.

The doctors report more cases of tuberculosis in our community than we have funds to care for. Therefore buy Red Cross seals.

With every man woman and child having more to be thankful for than ever in their lives it is odd that only one of the Protestant churches in central Clearfield will be required to house those who want to return thanks.

It is high time that automobile drivers learn the rights of pedestrians and owners of live stock and poultry. An example should be made of those who like to boast of the number of chickens they killed on their last trip.

After observing how generously the United States has been dealing with the Allies, all the helpless nations on the earth would like to have this country accept mandates over them. With that accomplished, their troubles would be at an end, and ours would begin.

PRESBYTERIANS DEMOLISH BIG SERVICE FLAG

The Presbyterian church of Clearfield demolished its service flag with appropriate and unique services yesterday evening. At the opening of the services Dr. Reeve, the pastor, announced that the like of this service would never be held again and that this feature alone would be unique. He then recounted the experiences of war times and endeavored to impress upon the service men the fidelity and devotion of those left behind, the stirring times in Clearfield and the deep sentiment of the service flag. It was intended to have Col. Frederick B. Kerr and W. I. Betts make addresses but the former was ill and the latter was unavoidably absent but the balance of the program was carried out to a letter.

Dr. Reeves called on Mrs. George Reed to speak for the mothers of the congregation. Mrs. Reed gave an interesting account of the origin of the service flag and told of the mother's privilege to sacrifice for a loved son. A. Bowman Weaver, one of the boys who enlisted but did not get across told of "fighting the battle of Camp Lee" and described, as well as words can describe, the agony of the boy who wanted to fight France but was militarily sidetracked. Capt. W. S. Piper then talked from the viewpoint of the man who did see across. He spoke in feeling terms of the manner in which the boys "over there" were backed up by those at home. In closing he suggested that the service flag of the church be dedicated as a memorial to the Metropolitan mobilized by the Creator, that as Museum of Art in New York, the Museum passed into the Great Beyond his cum of Fine Arts in Boston, and the or her name be stricken from the Korean Gallery of Art in Washington as representing the peace-ton.

ing from this sphere of conquest to that Great Unknown where strife is ended.

The service flag of the Presbyterian church has on its white background a total of 104 stars which include three Y. M. C. A. workers and four Red Cross Nurses. Two of these nurses paid the supreme sacrifice—Miss Judith Viberg and Mrs. Elizabeth Cleece. Of the service men, not one man lost his life and for this there has been great rejoicing in the church. Ten were wounded.

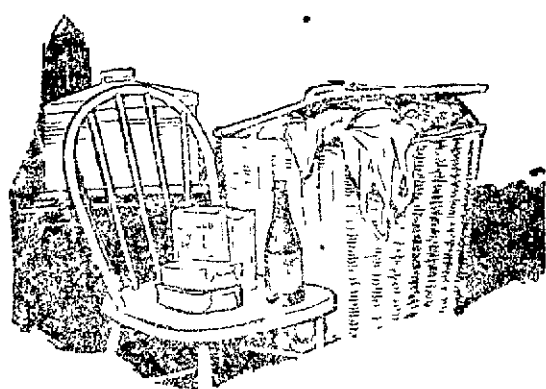

At the conclusion of the service the congregation voted to erect a bronze tablet in the church having inscribed thereon the names of all on the service flag.

The flag was lowered by Billy Piper and fondly and reverently folded and laid away by three little girls. The lowering of the flag was done while the congregation sang the song, "God Bless Our Splendid Men," which has been sung at every service since shortly after the war started.

FAT PERSONS DIE FIRST, SAY INSURANCE MEN

CHICAGO, Nov. 20.—In an address today before the American Institute of Actuaries, H. W. Batholp, Indianapolis, who has devoted years to the study of life insurance, made these observations: That thin persons live longer than fat persons. That the moderate use of alcoholic beverages is not likely to lessen life. That the middle west is the most healthful locality of the United States. That the extreme south is the most unhealthy section of the United States.

The coming year will mark the centennial of the founding of home. In closing he suggested that the service flag of the church be dedicated as a memorial to the Metropolitan mobilized by the Creator, that as Museum of Art in New York, the Museum passed into the Great Beyond his cum of Fine Arts in Boston, and the or her name be stricken from the Korean Gallery of Art in Washington as representing the peace-ton.

When the wash-woman walks out

Washwomen are, on all of us—Lut human at the best. The heat of summer that provokes us to petulance and becares us to yearnings for a holiday, awakens in them the same emotions and desires.

It, therefore, your address be one of those who has succumbed to the lure of summer and walked out, the occasion should not be one for bickering.

For in the emergency our FAMILY LAUNDRY SERVICE is at your disposal.

Our family washing methods conserve as well as cleanse your clothes. There is no boiling, no rubbing, no scouring, and no buttons broken or torn loose. Our way, the modern way, is one of scouring and rinsing in soft water and loads of pure, white soap.

When the summer sun becomes oppressive, call us up and we will instruct the driver to call for your family bundle and your washday troubles.

The Gaiaday wash day is different—and better. From the pressing of the laundry to the start of the motor, to the point when the clothes are wrung into the basket—clean, spotlessly pure—the Gaiaday way is convenient, economical, easy on the clothes. And good results are an absolute certainty.

Let electric motor and Gaiaday wringer help you do the laundry. The Gaiaday Machine do the hard work for you—there's the way to keep going. It doesn't put in the long run to do the kind of housework that wear down your strength—there's nothing left for the better things of life. And good help with the Gaiaday and more each year. This is a mighty good time to get out from washday inefficiency.

SPORT NOTES

The DuBois High school football team will not play a return game Clearfield on Thanksgiving Day. Seven or eight reasons have been advanced for the cancellation of this game which had been scheduled since the Clearfield team went to DuBois a couple of weeks ago and swam about the DuBois football field to a tie. As the time to make good on their promise to come to Clearfield approached the DuBois team and its management began to get chilly. The more they thought of what Capt. Butler and his sturdy warriors had in store for them on a decent playing the lower their temperature dropped. This congealing process extended down their spinal column until it became epidemic and finally attacked the feet of both players and management. You would have to see the feet of that DuBois aggregation to get a line on just what a serious and far-reaching disorder this case of "cold feet" has got to be.

When the disease was in its first stages a guarantee of \$100 was demanded by the management to bring their team to Clearfield, altho they gave Clearfield but \$65 to go to DuBois and our team had to stay overnight, whereas DuBois could come here on the regular morning train and get back after the game in the evening. They thought the guarantee would save their face. The Clearfield team offered to put up the \$100 and then the jig was up. "Cold feet" had become chronic and incurable in this case and all other subterfuges being unavailing the game was cancelled and our friends from the "big city" will not take a chance.

The Gil-Block boxing bout at the Driggs Theatre on the afternoon of Thanksgiving Day, becomes more interesting to the local sport enthusiasts daily. This is the first time two real high-class scrappers have been scheduled for Clearfield and a record attendance is looked for by the management.

Ticket reservations are being rapidly made and local fans who desire the best seats had better be getting their tickets while there is yet time. From present indications a number of the gentler sex will be present to witness the bouts Thanksgiving afternoon and attempt to find out just what attracts their red-blooded men friends to these athletic exhibitions.

I was there to make a sketch of her. Lunch was just over, and she was talking to a little kind of woman. The first words I heard, as I slid quietly into a nearby seat, were "National Biscuit." Calling attention to my own tasty meal, she said, "I liked her, and I liked coming to the party. I liked the food, and I liked the people. I liked the place, and I liked the time. I liked the day, and I liked the night. I liked the whole thing." She was smiling, and she was happy. I thought, "I wish I could be like her. I wish I could be so happy. I wish I could be so content. I wish I could be so at ease. I wish I could be so at home. I wish I could be so at peace. I wish I could be so at love. I wish I could be so at life. I wish I could be so at everything." Mothers, Prepare!

Burnham, Pa.—"I can fully endorse and recommend Dr. Pierce's Favorite Prescription to all prospective mothers. I feel that I could not be without it during pregnancy. I am the mother of four living children. Am strong and healthy and able to do hard work. A woman of my acquaintance was the mother of thirteen children and all the doctor she had was 'Favorite Prescription' which she used for three or four months and never had any trouble. I would not do without it."—MRS. J. C. KANOUR, Box 216.

A Prominent Nurse Testifies

Philadelphia, Pa.—"When I get a cold and have pain through my lungs, I resort to Dr. Pierce's Golden Medical Discovery, which I cannot praise enough. As for Dr. Pierce's Favorite Prescription, I never have a case of expectancy that I do not recommend it. They all say, they would not do without it. My kidneys and back were so bad that I had to turn down several cases. After taking a trial package of Dr. Pierce's Favorite Prescription, I got a full-sized bottle and the relief was wonderful. I am relieved of the backache and the exertion is healthy looking. I am feeling fine. As for Dr. Pierce's Pleasant Pellets, when I feel dizzy and drowsy and get the blues I go for the 'Pellets' and in 24 hours I am feeling fine. They are the best cure for liver and indigestion. I could speak equally as well for Dr. Pierce's Extract of Sarsaparilla. I have also used the Ironic (iron-tonic) tablets and they have proved wonderful. I could go on with praise of Dr. Pierce's valuable remedies but space will not permit. If anyone calls on me I can tell you my experience better than I can write it."—MRS. LOUISA BARNARD, 211 E. LOCAL CITIZENS LOOK OVER NEW CASKET PROJECT

(Advertisement)
Several Clearfield business men, with Mayor John M. Chase at the head, visited Altoona Saturday last at the invitation of local agent H. A. Boone to inspect the plant of the Altoona Glass Casket Corporation. This corporation has a number of local stockholders and as it is the purpose to get the plant in operation as soon as the finishing touches can be put on same, it was desired by the management that this committee should visit the plant and note the substantial nature of the progress made thus far.

The product of this concern is expected to revolutionize the coffin or casket industry continuing as it does the highest efficiency with neatness and cheapness of construction. The corporation owns six and one-half acres of land just outside of Altoona upon which they have erected the first unit of their plant which will ultimately cover the entire plot. The initial unit contains the most modern of glass making machinery surrounding a \$50,000 furnace.

The officers of the corporation are made up of some of Blair county's best known and most substantial business men, the President S. W. Manning, having charge of the construction of the plant.

The glass casket is made of two pieces of glass, grooved and tongue, and when closed is hermetically sealed and as glass resists the action of the earth's minerals very much better than wood or metal are supposed to be far superior to all other materials used in the manufacture of caskets. Walter J. Lumbieau, fiscal agent of the company, will visit Clearfield Thursday evening in the interest of the Glass Casket Corporation and will explain the advantages of same to a meeting at the Fireman's Hall on Market street.

Foley's Honey and Tar Compound

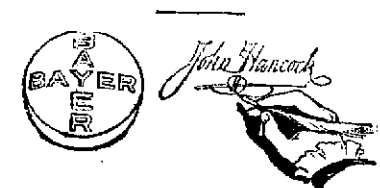

IT IS JUST WHAT CHILDREN ought to have for feverish colds, coughs, "snuffles," and that tight, wheezing breathing. It stops croup, too. It eases and checks whooping cough, measles cough and bronchial coughs.

Every User a Friend
"My little girl had been having the croup every few nights, so I began giving her a few drops of Foley's Honey and Tar every two or three hours. That night she slept well, never coughed any, and next day her cold was gone."—Mrs. R. M. Ranley, Stamford, Ky.
"My three children had a very severe attack of whooping cough. The first few doses of Foley's Honey and Tar gave them great relief, and it did them good."—Mrs. E. C. Hostler, Grand Island, Neb.

Foley's Honey and Tar has been used for more than thirty years in thousands of homes for relief from coughs, colds, spasmodic croup, tickling throat, hoarseness, whooping cough, bronchial coughs and the coughs that follow influenza or grippe.

NEWS OF OUR NEIGHBORS CURWENSVILLE

Mr. and Mrs. William Milliron, who spent several months near Franklin Grove, Ill., with the family of William Back, returned to their home in Curwensville last Saturday.

A football squad composed of members of the Sophomore class of the High school went to Clearfield on Saturday and were defeated by a score of 20 to 0. This was their first attempt at the game, but those who witnessed the game say the boys put up a right snappy game.

Isaac Black and son Raymond, who have been operating a drilling machine in the western end of the county during the summer months, are moving the machinery to Stronach and will sink some test holes for Harbison-Walker.

Several children in the family of Mr. and Mrs. Atlie Norris are ill with pneumonia.

Miss Hazel Thomas, who resides in Bloom township, and attends the High school here, stated to us that while at Bloom's Run station awaiting a train, she and her father saw a flock of seven deer, pasturing between the railroad and Anderson creek. It is seldom that she does not see from one to four deer near the same place every morning.

Reed Boyd, one of Clearfield's Boy Scouts, was the guest of Curwensville friends over Sunday.

Re-finish Your Car

NOW!!

The roads are well nigh undrivable. You might as well take advantage of this condition to have your car re-finished. The winter rush will soon be on and you don't want to get caught. Then, too, your car will go over the winter much better if the finish is bright and fresh. The cracks in the enamel will be closed so that deterioration will stop at once.

Why Does a Woodpecker Peck

BY ADELIA BELLE BEARD

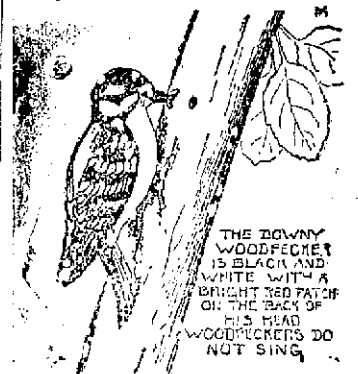

If you can get near enough to a woodpecker when he is pecking steadily at one spot on a tree, or if you have a good pair of opera or field-glasses through which to watch him, you will see for yourself why he pecks. He does not do it for the fun of the thing you may be sure, though no doubt he enjoys his skill in securing his dinner by his own peculiar method.

And that is why the woodpecker pecks. He pecks that he may eat and he eats the wood-boring insects that destroy the fruit and forest trees, so he is pecking in your interest and mine as well as his own. He also pecks to enlarge—or make—a hole where he can put his nest.

The hungry, little worker has THREE PERFECT TOOLS always ready for use. First there are his very keen EARS which tell him without fail exactly where to find the grub or the wood-boring beetle and its larvae hidden away in the wood under the bark. Next he has a BEAK which is a perfect, little chisel, wedge-shaped at the tip, strong and sharp. This he uses to drill a hole directly over the insect his ears have located; a hole that looks as if made by a gimlet. The last of his three tools is his TONGUE and a most remarkable tongue it proves to be. It is very long and stretches far beyond the point of his beak. The tip is hard and horny and is provided with hooks slanting backward like those on a harpoon.

This long tongue the woodpecker uses to thrust down into the small, deep hole he has excavated (he could never get his beak into it) and to drag out on its hooks the juicy grub, or other insect, which is fattening on the life of the tree.

Do you know how many varieties of woodpeckers are found in your state? Can you name them?

THE DOWNY WOODPECKER IS BLACK AND WHITE WITH A BRIGHT RED PATCH ON THE HEAD. WOODPECKERS DO NOT SING.

A Vienna newspaper prints a story to the effect that among the superstitious peasantry of the Tyrol the belief has taken root that President Wilson is none other than the Crown Prince Rudolph, son of the late Emperor Francis Joseph. The Crown Prince, so the myth runs, was not killed in the famous tragedy of the castle of Mayerling in 1889, but merely kidnapped by his enemies and a dummy man buried in his stead. Later, so the story goes, he succeeded in escaping to America, where he assumed the name of Woodrow Wilson, and rose eventually to the presidency.

On the approach of a thunderstorm French peasants often make up a very silly fire, in the belief that safely from lightning is assured. By some this is deemed superstition, but the custom is based on reason, inasmuch as the smoke acts as a good conductor for carrying away the electricity.

If Skin Breaks Out And Itches Apply Sulphur

Just the moment you apply Menthol-Sulphur to an itching, burning or broken-out skin, the itching stops and healing begins, says a noted skin specialist. This sulphur-preparation made into a pleasant cold cream, gives such quick relief, even to febrile eczema, that nothing ever has been found to take its place.

Because of its germ-destroying properties, it quickly subdues the itching, cools the irritation and heals the eczema right up, leaving a clear, smooth skin in place of ugly eruptions, rash, pimples or roughness.

You do not have to wait for improvement. It quickly shows. You can get about two ounces of Menthol-sulphur for a few cents at any drug store.

Can't you eat all things Workman's? The loaf is the regular 13c.

How to Study Skillfully

A Code of Manners for Books

BY ISABEL W. CLAYTON

Francis W. Parker School
Just as there is a code of manners of behavior, there is one for books. Do you know and use it?

Do not hurriedly open a new book. Instead lay it on a table or flat surface, grasp the pages in one hand and with the other gently push the covers down. Then press a few leaves down, first in the front and then in the back. Do this until all have been pressed down. This softens the back and prevents it from breaking.

Never use anything thicker than a piece of paper to turn a bookmark. Do not turn the book over on its face; do not turn a leaf down or place a pencil or pencil mark in the book to mark the place.

Keep your books clean. Do not touch them when your hands are soiled. Do not turn the pages with a moistened thumb. If it leaves a mark which is hard to remove.

When the cover has become soiled, clean it with finely powdered pumice stone rubbed in with a soft cloth. Soiled pages may also be cleaned with the pumice stone or with art gum.

If a leaf is torn, cut a piece of thin cream-colored paper one half an inch wide and the length of the tear and apply it by means of a good library paste to the tear. Put a piece of oiled paper under the page when mending so that no paste will get through to the next page.

If a page comes out, make a hinge of a good brand of paper one inch wide and the length of the page. Fold the paper lengthwise. Put library paste on one half of the folded paper and apply to loose page. Be sure that the folded edge of the paper is next to the inner edge of the page. Then paste the other side in book. See that the page is put in evenly. If it protrudes beyond the other pages trim neatly.

If kidneys and Bladder Bother

Take a glass of Salts to flush out your kidneys and neutralize irritating acids.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains, irritate and inflame, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse again there is difficulty in voiding it.

Bladder weakness, most folks call it, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless and is made from the acid of grapes and lemon juice, combined with lithia and has been used by thousands of folks who are subject to urinary disorders caused by uric acid irritant. Jad Salts is splendid for kidneys or causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble.

To the Citizens of This Town

You carry great responsibilities. In your hands are placed the lives of our children. If a fire should start in any schoolhouse two things may happen.

The building may be burned to the ground, and you know the building itself and its equipment could not be replaced today at many times the price it cost.

But that is unimportant compared to the possibility of a panic and loss of life among the children.

Every school building should be equipped with Pyrene Fire Extinguishers, and the use of Pyrene Fire Extinguishers should be taught in every school fire drill.

A Pyrene Fire Extinguisher will put out any small fire before it can gain headway. It is so light and simple that any woman or young child can use it. With a Pyrene handy fire can be put out before there is a chance for a panic.

Let us show you how many Pyrene Fire Extinguishers should be in each schoolhouse in this district.

Pyrene should be in every home also.

To Darken Hair Apply Sage Tea

A few applications of Sage Tea and Sulphur bring back its vigor, color, gloss and youthfulness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage Tea and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

Efficiency

By VICTOR REDCLIFFE

(Copyright, 1913 by the Western Newspaper Union)

There never was a finer office layout than that of Alvin Perry who did a mail order business of magnitude and profit. The quarters were roomy and comfortable, the seven girl stenographers pretty, cheerful and efficient and the young men, from the book-keeper down to the bill clerk, model employees.

"They are like some happy family," Perry told a friend. "Every one does his or her best. I don't have to watch them and the business runs on greased rollers."

Then came a change. Perry decided to enlarge his trade. This took money, and a retired merchant agreed to supply the capital.

"I don't want to be active in the business primarily," announced Mr. Gideon Wells, "but I have been a successful man and I know the methods. At the end of each month you will supply me with a full audit."

"Oh, surely that," acquiesced Perry readily.

"And you must have an efficiency man put things on a modern working basis," but at this Perry hesitated, asking what this to him unfamiliar feature might signify.

A spell of gloom, of dissatisfaction was cast over the little office group the day that Mr. Paul Smith strode into view. Efficiency in saying showed on his hatchet-like, severe face. His hawklike eye pierced the personality of every employee as though he was arranging them in some court of criminals. He set to calculating the selling price of waste paper in the highest market, and ordered the office boy not to allow a scrap to escape his eagle eye. He examined all the typewriter ribbons. After a week of pottering around he came into Perry's office and closed the door.

"Well, I've done some things by way of a start," he placidly announced. "Charge to waste salvage two dollars and ten cents, and the ribbons an economy of thirty per cent."

"Yes," nodded Perry, "but you have scared away the best office boy we ever had, and worn ribbons work out some pretty weak looking copy."

"Efficiency, my dear sir, efficiency. Now then, I wish to attack your business system at its very root. There is altogether too much half-fellow well-met among your employees."

"Why, what do you mean," demanded Perry, rousing up.

"Just this: at the lunch hour you'll think your back office was a regular banquet hall. The employees pool their dinner money and make a regular party of it."

"They're orderly if happy, aren't they?" challenged Perry. "There are four engaged couples among the group. They do their work efficiently, are contented and cheerful, and their own little joys and lunch hour relaxation harm nobody."

"That may be, but I was engaged to put in a system, and Mr. Wells approves my plan. I would suggest that the young ladies all wear uniform black dresses, and one by one I would dismiss them and replace them with men typists."

Perry resisted, but Mr. Wells backed up his expert. The proposed revolution became known to the office force. One afternoon their duly appointed chairman came to Perry.

"We all feel sorry, sir," spoke the individual, "but we know too well how the tactics of this efficiency phenomenon of yours will end, and we have decided to resign our positions in a body."

And all save one forthwith marched out of the office. The one was Nellie Weaver. She was the head stenographer, with an aged mother dependent upon her earnings, and was the oldest and most reliable employee in the place. At her Perry glanced desolately and desperately, and gratefully, too, that she had not left him entirely in the lurch. Her eyes were troubled, but full of sympathy, too. They had never looked so witching to the perplexed Perry.

"Miss Weaver," he said "what am I going to do?"

"Can I speak freely," inquired Nellie, and as he nodded a willing assent she continued: "If I were you I would insist on this trouble maker leaving at once. Mr. Perry, half of the force are lovers and engaged, and it is love that makes the world go round and is responsible for the harmony that has always pervaded this office. You cannot replace the trained people who have just resigned. Please let them all come back—all of them, even to the office boy."

"I'm going to see Wells at once, and he'll agree to your suggestion or I will cancel our partnership."

Alvin Perry was gone an hour, when he returned he was excited, almost jubilant. "No more efficiency experts," he announced with zest. "I depend on you to see the others and arrange for matters as they were. You are a wise, precious little adviser, Nellie, and I've been thinking about what you said of love making the world go round. I want it to help me to do it. Nellie, I haven't been so busy a man that I haven't appreciated you. Something more! I love you. Will you make me happy?" and Nellie's blushing face and averted eyes gave answer.

Everyone Should Drink Hotter in the morning

Wash away all stomach, liver, and bowel poisons before breakfast.

To feel your best, day in and day out, to feel clean inside; no sour breath, no coat your tongue and sicken your breath or dull your head; no constipation, bilious attacks, sick headache, colds, rheumatism or gassy, acid stomach, you must bathe on the inside like you bathe outside. This is vastly more important, because the skin pores do not absorb impurities into the blood, while the bowel pores do. To keep these poisons and toxins well flushed from the stomach, liver, kidneys and bowels, drink before breakfast each day, a glass of hot water with a teaspoonful of limestone phosphate in it. This will cleanse, purify and freshen the entire alimentary tract before eating more food. Get a quarter pound of limestone phosphate from your pharmacist. It is inexpensive and almost tasteless. Drink phosphated hot water every morning to rid your system of the vile poisons and toxins; also to prevent their formation.

Infant marriages are still prevalent in India. Official figures show that in 1911 there were 153,518 "married men" under five years of age and 502,425 "married women" of the same tender age. Of "husbands" between the ages of five and ten there were nearly a million, while "wives" between these ages numbered well over two million.
